

C01 - AT2

Name : O. S. Sabiha

Registee NO : 192424264

Course Name : Computer vision with open cv

Course Code : DSA6204

Dependencies between Image Quality parameters and System performance

Image Quality parameters

Resolution
(Spatial Detail)

More Detail
and clarity

Noise
(Random Variations)

Lower Noise
Better clarity

Contrast
(Intensity Difference)

Better Distinction
of Objects

High Quality Image

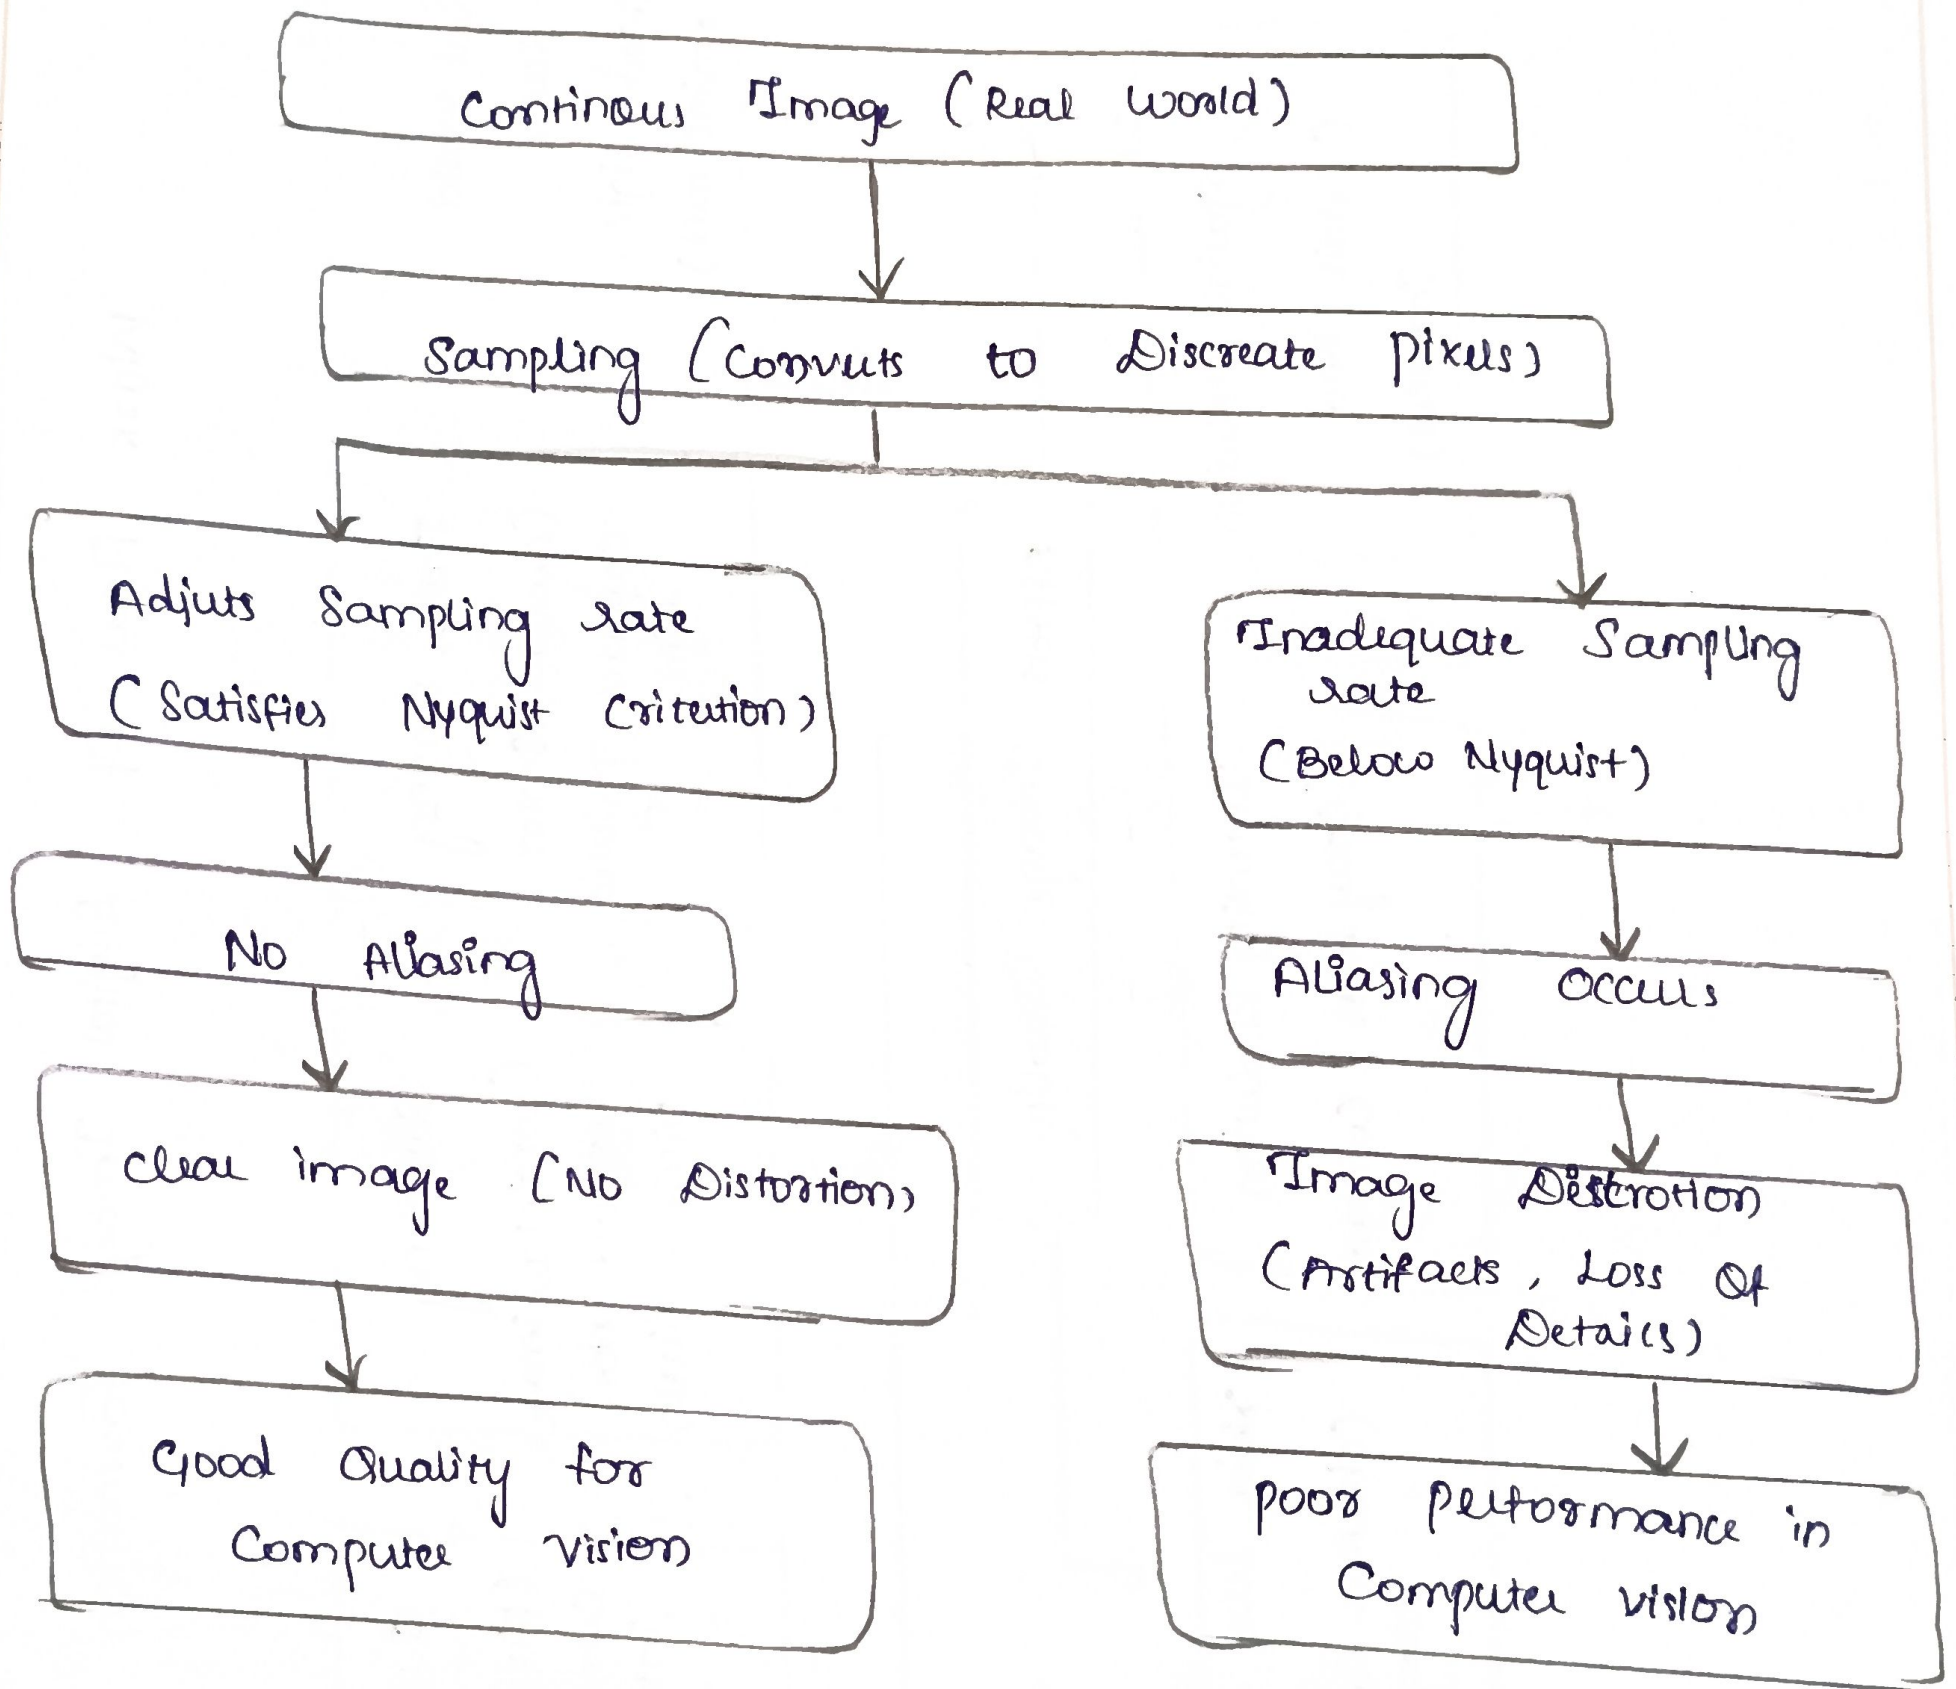

Accurate feature extraction

Improved Decision Making

Better System Performance

Application : Medical Diagnosis, Surveillance
Autonomous vehicles

Relationship between Sampling, Aliasing and Image Distortion

Work Flow Of Digital Image formation
